STEP 1 OF 3. Supplier Control Panel

Great! Your registration was successful. Upon logging in, the system will take you to the supplier dashboard, where the following interface appears. Here, you'll find three main sections:

- Company Profile
- Search System
- Business Opportunities

To apply for a position, go to the business opportunities section and select "Business Opportunities" for the one you're interested in participating in.

STEP 2 OF 3. List of requirements

In the meeting you selected, you will find a list of registered purchasing companies and their published requirements. Suppliers can browse this list by clicking the "View Requirements" button to identify the requirements they can meet.

An overview of each requirement published by the buyer will be displayed, as in the following example:

The screenshot displays the Schain web application interface. At the top, the Schain logo is on the left, and the user profile 'EMPRESA DE PRUEBA' with the role 'PROVEEDOR' is on the right. A search bar for 'Buscar proveedores' is also present. A light blue banner contains the text: 'In order to make business connections more efficient, we ask that you only schedule an appointment for those requirements that your production profile can meet.'

The main section is titled 'List of requested requirements'. It features a search filter 'Search by requirement' with the example text 'E.g. Machining' and a 'Search' button. Below this is a dark grey bar with a toggle icon and the text 'See 38 requirements'.

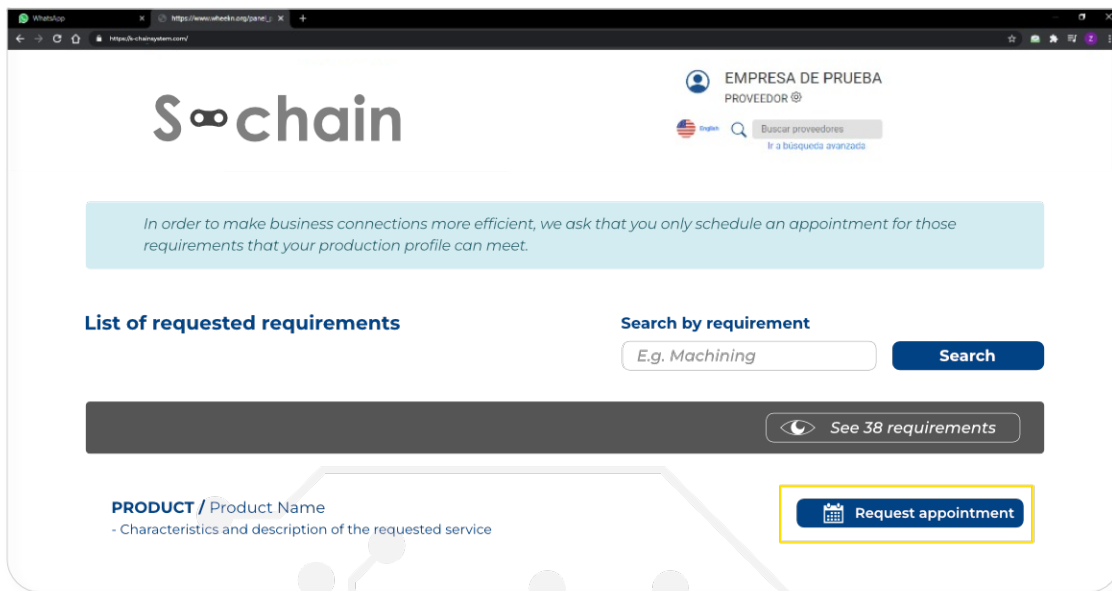

The list of requirements consists of seven entries, each with the following structure:

- PRODUCT / Product Name**
- Characteristics and description of the requested service
- Request appointment** button

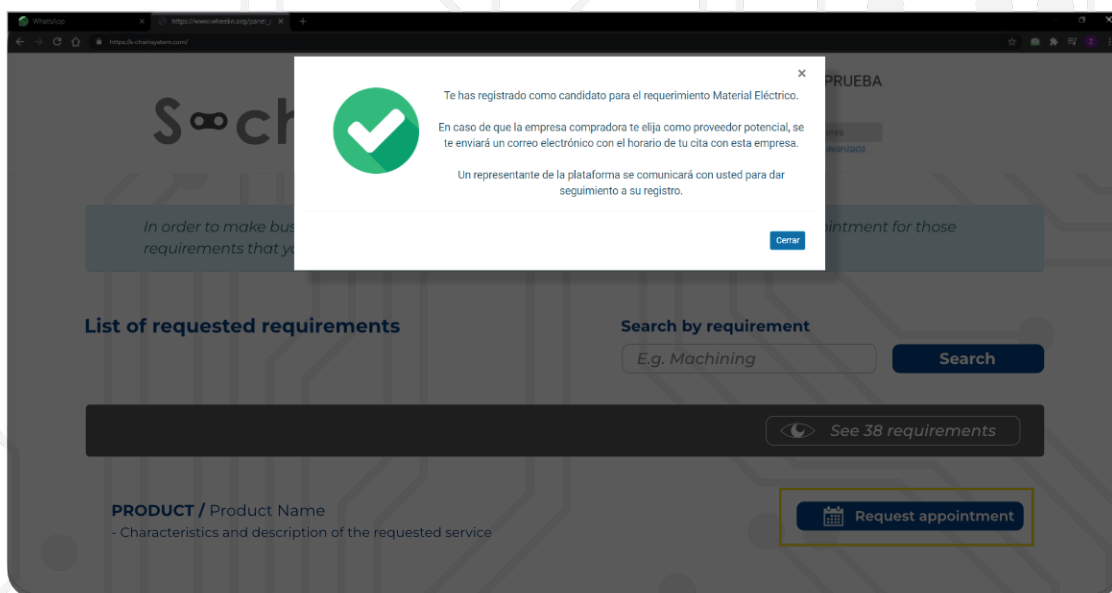

STEP 3 OF 3. Apply to a requirement

Once you've identified the requirements you wish to apply for, click the "Request Appointment" button within the requirement.

This action will send an email to the buyer notifying them that a supplier has just applied for one of their requirements.

After applying for the requirement, a confirmation message will be displayed notifying you that the application was successful.

Buying companies will receive your business appointment requests and review your production profile. If their evaluation is positive, they will initiate a contact process with you to initiate the match. You will then be notified by email of the match activity recorded.

RECORD ACTIVITY

Select the next activity you plan to do with the interviewed supplier.
Fields marked with * are required.

Select ▾

Type of interview*

☐ Call
☐ Videoconference
☐ In-person

Additional interview information. Provide sufficient information to conduct the appointment (email, phone number, address, etc.)*

Fecha de acción o envío de documentos*

dd / mm / aaa

Time of action or sending of documents*

-- :-- :--

SEND

The system features automated elements, so if a purchasing company posts a request that matches your profile, it will send you email alerts so you can access these business opportunities.
